

Accessory

Trimmer

Due to its extensive range of motion, the trimmer can adapt to various conditions and be used at different heights, enabling double-sided treatment of the vines. One horizontal and two vertically oriented cutter bars allow efficient trimming in a single pass.

4,325 mm

Technical data

Length of cutter bars	900 - 1,200 mm
Required hydraulics for cutter blades	min. 20 l/min at 160 bar
Necessary hydraulics for cylinder movement	min. 10 l/min at 130 bar
Weight	450 kg (incl. counterweight)
